

No Medicine-Chest Without Its Family Laxative

From the baby to the grandparent a good laxative is the necessary medicine in the little ills. It wards off serious sickness and saves doctor's bills. Many a cold has been prevented from running into grippe and pneumonia by its timely use.

Many a racking headache has been quickly dispelled by it. And it is a laxative rather than a drastic cathartic or purgative that should be in every family medicine-chest, for a laxative can be used at all ages.

Thousands of good American families have for more than a quarter century used a combination of simple laxative herbs with pepsin known to druggists as Dr. Caldwell's Syrup Pepsin. It is a laxative- tonic that acts on the bowels and stomach. Infants take it with perfect safety, and it is equally effective for grownups.

Grandparents are now seeing their children give it to their babies. It is excellent for all the family in constipation no matter how chronic, indigestion, wind colic, biliousness, headaches, dyspepsia and similar ills.

The druggist will refund your money if it fails to do as promised.

PRICE AS ALWAYS

In spite of greatly increased laboratory costs due to the war, by sacrificing profit and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 25 years. Two sizes—50c and \$1.00.

GRAY HAIR BECOMES DARK AND BEAUTIFUL

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that sage tea and sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wheat's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. —Adv.

WORCESTER

Much Dissatisfaction Felt Over the New Telephone Rates.

There is a good deal of dissatisfaction over the new telephone rates and several are having their telephones taken out. When it is remembered that we are only a farming community, nine miles out from Montpelier, which is our market town, and that since the death of Dr. Turner we have no physician in the place and often have to call several doctors before one can be found who is willing to come to Worcester and in two instances of broken bones no doctor was found who would come, as the patients had to be taken to Montpelier hospital, it surely seems like hard times. When Calais, Berlin, Middlesex and East Montpelier can have the Montpelier exchange and Worcester is put on a 10-cent toll call rate, where is the fairness?

CORNS, CALLUSES QUIT QUICK!

Two Drops of "Gels-It" Will Do It

Ever hand-carve your toe with a knife, trying to get rid of a corn? Ever use scissors and snip off part of the corn too close to the quick? Ever pack up your toe with "contractions" and plasters as though you were packing a glass vase for parcel post? Ever use greasy ointments that rub off on your stocking? Ever use sticky tape that gets jerked off when you pull your stocking off? Kind of foolish, when two or three drops of "Gels-It" on any corn or callus give it a quick, painless, peaceful, dead-sure removal! Why putter and suffer? "Gels-It" stops corn pains, it lets you work, smile and dance, even with corns. It's the common-sense way, the only simple, easy way—peels corns off like a banana peel. Used by millions. It never fails.

"Gels-It" is the guaranteed, money-back corn-remover, the only sure way, costs but a trifle at any drug store. Manufactured by E. Lawrence & Co., Chicago, Ill.

Sold in Barre and recommended as the world's best corn remedy, by Cummings & Lewis.—Adv.

COAL FACTS

No. 4

To those who are hoping for big price reduction:

We are in the coal business. We believe we know conditions. Frankly we cannot predict future prices. No one can. While we do not think substantial reductions are likely, there are many factors that may bring about some reduction.

Wages at the mines may be reduced. Freight rates may be reduced. On the other hand, there may be serious labor troubles; public utilities in New York City have recently faced a "close-down" because of inability to get coal. Cause: harbor strikes.

The wise consumer orders now and takes a fair share of his year's coal supply under existing price conditions; he provides himself against a

recurrence of the horrible conditions of two years ago. If wide-spread labor troubles arise at the coal mines during the cold weather, who can measure the value of the coal already in your cellar?

We consider ourselves in partnership with the consumer. It is our function to get his coal to him. We advise him to take it during the open weather and as quickly as convenient. We know no more of what the future holds than the consumer does.

Buy your coal now and cease worrying about it.
